

# Proper way to save a Presentation to solve UPLOAD problems.

## If you are using KEYNOTE:

- (1) Finish your presentation in Keynote, save it.
- (2) Export your Keynote presentation as a Powerpoint Document.

- (3) Make sure it is marked as a POWERPOINT.

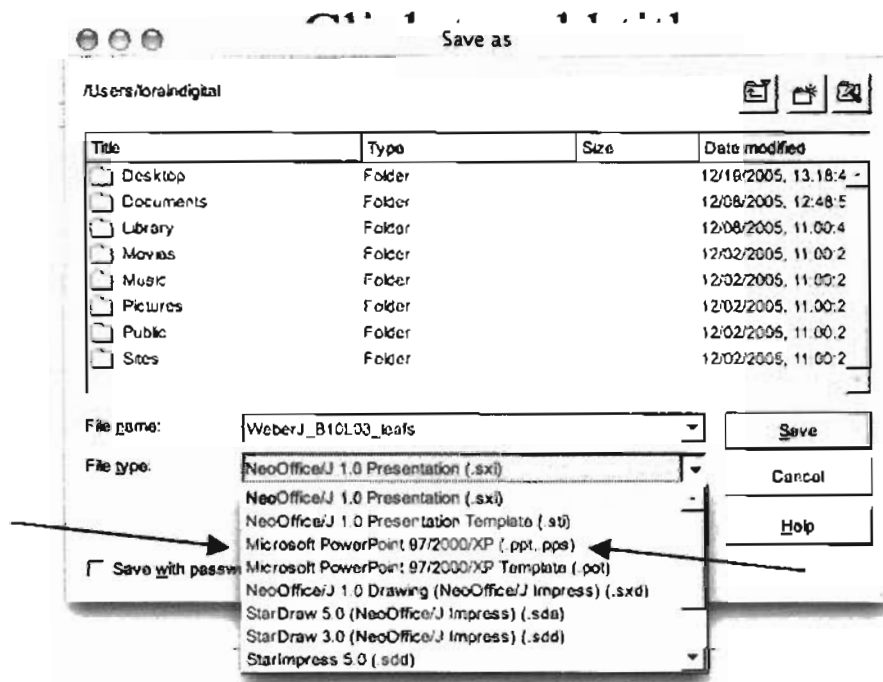

- (4) Export it to the proper folder, then drop in the drop box, the powerpoint save, NOT the Keynote.

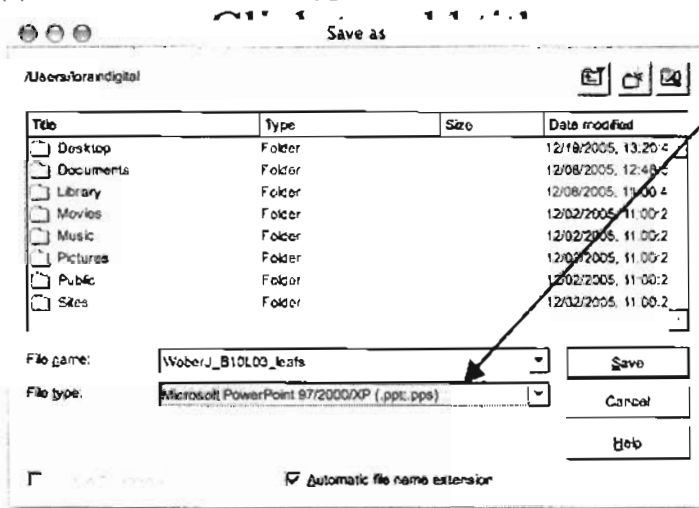

# If you are using NeoOffice Presentation:

The trick is, you must save it as a **Powerpoint Presentation (ppt)**,  
**NOT** a NeoOffice (sxi)

(1) Do a file **SAVE AS**, click in the **FILE TYPE** box.

(2) Make sure the file type is **Microsoft PowerPoint 97/2000/xp (ppt,pps)**

(3) Save it to the proper folder, Drop it in the drop box.
